

Remembering Those We Lost on 441

US 441 has taken the lives of pedestrians, cyclists, motorcyclists, passengers, drivers, workers, residents, and visitors.

They were not statistics. They were parents, children, relatives, friends, coworkers, and members of our community.

Safe 441 Broward is creating a voluntary memorial to honor those who lost their lives while walking, cycling, riding, driving, working, or traveling along US 441 and State Road 7.

Families and loved ones may choose to:

- Share the person's name and photograph
- Tell us about their life
- Provide a written statement
- Speak privately with the campaign
- Participate in an audio or video interview
- Identify the safety improvement they believe could prevent another death
- Keep their submission private while still helping guide the campaign

No name, photograph, statement, or personal story will be published without clear permission.

Share a Loved One's Story

Have you lost a family member, friend, or loved one along US 441?

You may contact Safe 441 Broward privately. Speaking with us does not require you to participate publicly, appear on camera, or allow anything to be published.

Our purpose is to honor the person, understand what happened, and help turn loss into meaningful safety improvements.
